Frequently Asked Questions

What is a Community Redevelopment Agency (CRA)?

A Community Redevelopment Agency (CRA) is a dependent taxing district established by local government for the purpose of carrying out redevelopment activities that include reducing or eliminating blight, increasing the tax base, and encouraging public and private investments in the redevelopment area. The members of the City Council also serve as the Board members of the SR 100 CRA.

Why create a CRA?

CRAs are created to assist local governments in pursuing redevelopment in targeted areas that are characterized by blight and disinvestment. By establishing a CRA, local governments are given a financial and planning mechanism by which to redevelop areas where private market forces aren’t working.

Where are the designated CRA areas?

The SR 100 CRA encompasses 2,946 acres and is generally located east of Belle Terre Parkway, north of the State Road 100 centerline, south of Royal Palms Parkway, and approximately 0.75 miles east of Interstate 95.

What type of activities will happen in CRA areas?

Redevelopment activities are outlined in the SR 100 CRA Redevelopment Plan. The Redevelopment Plan is a document that is approved by the City and the SR 100 CRA Board. The Redevelopment Plan outlines the goals and objectives for the district, and more importantly, outlines the specific programs and capital improvements designed to reach those goals.

How are redevelopment activities funded?

Activities in CRA districts are predominantly funded by tax increment. Tax increment is calculated based on the dollar value of all real property in the Community Redevelopment Area at the time CRA district is created, also known as the “frozen value”. Taxing authorities who contribute to the tax increment continue to receive property tax revenues based on the frozen value. However, any tax revenues from increases in real property value, referred to as “increment”, are deposited into the Community Redevelopment Agency Trust Fund and dedicated to the redevelopment area. It
is important to note the property tax revenue collected by the School Board and any special district (ex: SJRWMD) are not affected under the tax increment financing process. Tax increment revenues can be used immediately, saved for a particular project, or bonded to maximize the funds available. Any funds received from a tax increment financing area must be used in accordance with the Redevelopment Plan for specific redevelopment purposes within the targeted area, and not for general governmental purposes.

Land Purchases
The State Road 100 Corridor Community Redevelopment Area (SR 100 CRA) Plan outlines two target areas for redevelopment. These areas, Midway and Whispering Pines, are antiquated subdivisions with no existing infrastructure except for dirt driveways. The SR 100 CRA has acquired many of these properties as part of an overall strategy to eliminate or reduce blight in the area and aggregate property for future redevelopment. The SR 100 CRA Board has directed City staff to pursue voluntary acquisitions where the property owners are willing to sell their property at the appraised value. As willing property owners come forward, City staff will bring forward items for City Council and SR 100 CRA Board consideration. City staff will continue to look at redevelopment options and talk to interested parties about redevelopment of City-owned property along State Road 100.
