The Palm Coast Virtual Citizen's Academy

The City's newest offering to residents was launched this week, the *Virtual Citizen's Academy*. It's one of the first of its kind – if not the first. Residents can now learn about Palm Coast, all from the comfort of home. The Virtual Citizen's Academy was created by Admin interns Hannah Hussmann and Nick Boellner of Flagler College, at the request of City Council, to accommodate those individuals who could not attend the in-person Citizen's Academy. The Virtual Citizen's Academy is available online at <http://www.palmcoastgov.com/vca>. Sign up for the in-person Citizen's Academy here <http://www.palmcoastgov.com/palm-coasters/citizens-academy>.

Highlights

Veteran's Day – Honoring America's Heroes

Our community's veterans were honored for their devotion to our nation, for their service and sacrifice, and for preserving freedom and democracy at the 2017 Veterans Day ceremony at Heroes Park. The morning was a moving patriotic event with musical tributes, speeches and a special presentation of wreaths by a pair of World War II veterans, 1st Sgt. Mickey Owens and Corp. Hal Mettee. Members of the Navy Band Southeast sang the *National Anthem* and played *Taps*, and the Coastal Florida Police & Fire Pipes & Drums played *Amazing Grace* and also piped in the Palm Coast Fire Department Honor Guard for the Presentation of Colors. The Community Chorus of Palm Coast performed *Unsung Hero* and *God Bless America*, inviting the audience to join in at the end. It was a beautiful morning at Heroes Park, and we thank our veterans for adding so richly to our community.

Restoration Begins:

This week, preparations began for the Palm Coast water storage tank restoration. Contractors installed the rigging that will support the huge tent to be installed over the tank. Maintenance on the tank is expected to take four to six weeks to complete. For more information, see the attached Utility Department Update.

City of Palm Coast develops innovative Virtual Citizen's Academy

Palm Coast – The City of Palm Coast is excited to announce the official launch of the new Virtual Citizen's Academy, which gives citizens an opportunity to learn more about their City government from their own computers, tablets or smart phones.

The Virtual Citizen's Academy is available online at www.palmcoastgov.com/vca.

The innovative Virtual Citizen's Academy is one of the first of its kind – if not the first. The virtual program provides residents an opportunity to learn about City operations online from the comfort of their own homes. The online academy can be done at the reader's own pace and has no deadline for completion. It is an alternative to the in-person Palm Coast Citizen's Academy.

The modules for the Virtual Citizens Academy include an introduction from Palm Coast Mayor Milissa Holland, an overview of the City government and sections about each of the City's nine departments: Administrative Services & Economic Development, Community Development, Finance, Fire, Human Resources, Information Technology, Parks & Recreation, Public Works and Utility.

The modules explain the role of each department and how they function on a daily basis. Each module is a presentation of video, photos, graphics and written text. The modules are organized to be engaging and easy for the viewer to navigate.

"You're going to love this experience," said Mayor Holland. "As one of the first graduates of the Citizen's Academy of Palm Coast, it was such a value added to my life. I felt a sense of pride even greater than I did going into it, and you get to know every single part of your city."

The Palm Coast City Council requested development of the Virtual Citizen's Academy for use by citizens who are unable to attend the in-person Citizen's Academy. The modules were created by Communications & Marketing interns Hannah Hussmann and Nick Boellner of Flagler College.

The in-person Citizen's Academy will be continuing for those who prefer that option. Residents can sign up online at www.palmcoastgov.com/palm-coasters/citizens-academy. The next session, in March 2018, is full. But spots are still available for next year's two other classes, beginning in May and September 2018.

The in-person Citizen's Academy is a five-week program with most meetings on Monday evenings. Participants have the opportunity to tour several City facilities, attend dinner with City employees, and meet directors, the City Manager, the Mayor and Council Members.

The most recent Citizen's Academy was completed in October with 23 graduates. It was the 42nd graduating class in the program's history. This session's graduates were Josie Araneta, RJ Araneta, Kay Ann Bartell, Barbara Burkley, Claudia Cannady, David Cirkseña, Susan Cirkseña, Andrew Dodzik, Norma Francis, Rudy Francis, Barbara Holley, Barry Ivers, Yvonne Jukes, Gloria Kelly, Maria Martens, Peter Martens, Patricia McLauren, Raymond O'Connor, Bonnie Parker, Michelle Rankin, Maria Stewart, Millie Williams and Ruby Wyche.

Thinking about adding to your family by adopting a furry friend? Look no further! The Flagler Humane Society has your next family member here waiting for you. We are thankful for all our adoptions but we see that our black colored feline and canine friends keep getting overlooked. We are running an adoption special on Black Friday where majorly black animals will have no fee adoptions. Black colored pets have the same great personalities that other colored pets have. Why do black pets get overlooked? There is no difference between a black cat and a white cat beyond the fact that they have different colored coats. Many people have a personal preference as to the color pet that they prefer but if you don't – please consider adopting a pet that is constantly overlooked but still as deserving of a loving home as the others.

Donation Opportunities: The *Flagler Humane Society Thrift Store* always accepts donations. They cannot take in any computers/printers or large appliances. Call 386-597-2839 and leave a message.
