Communications & Marketing

Communications & Marketing spent much of this week writing and designing the Annual Progress Report to reflect on the City's accomplishments for 2017. The report will be presented at an upcoming City Council meeting and distributed on the website and at the State of the City event in early April.

Staff is also working with the Parks & Recreation Department to plan the Community Center Grand Re-Opening ceremony, scheduled for 5 p.m. March 23. Just one month 'til the opening of the Community Center! The facility looks amazing, and we can't wait to share it with everyone.

The post-event survey was sent to attendees of the Birds of a Feather Fest, and final touches are being made to the next Palm Coaster newsletter. We staffed the City Council meeting including videotaping and airing it live. News releases sent out this week include the March Calendar of Events, Movies in the Park new season begins March 9, Celebrate World Tennis Day in Palm Coast (March 5 event), Red Cross lifeguard and swim instructor classes (March classes) and a web announcement about road closures on Kathryn and Kathleen this coming week. Development Order Issued for Sawmill Creek

The Sawmill Creek at Palm Coast Park Subdivision Master Plan was approved by the Planning and Land Development Regulation Board at its February 21st public hearing. This approximate 110-acre subdivision is located on the west side of US Highway 1, about 2/3 mile north of Matanzas Woods Parkway. The project is intended for a single-family residential community that would be developed in a single phase with two access drives onto US Highway 1. The subdivision is proposed for 259 single-family lots that are typically 50 feet or 60 feet in width with a centrally located amenity center.

DEPARTMENT ACTIVITIES

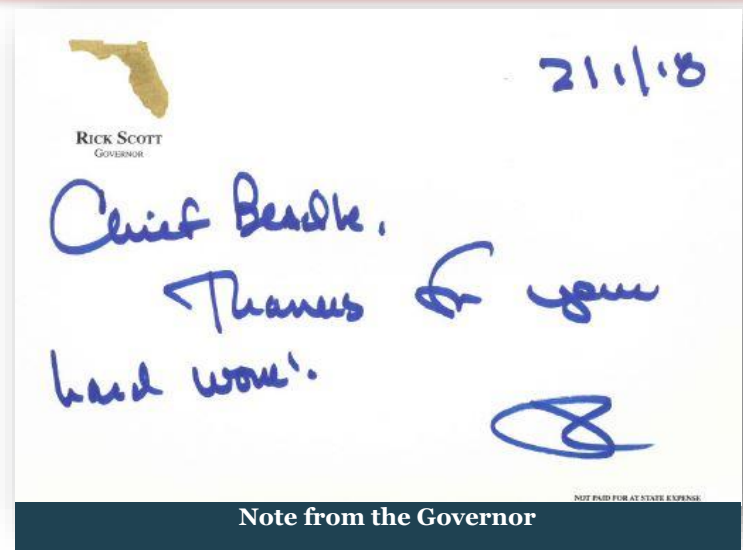

The Confined Space Team held quarterly training this week.

The Volunteer FF Interns spent 411 hours at the stations doing Ride Alongs in the month of January. Flagler Palm Coast High School students spent 94 hours at the stations doing Ride Alongs in the month of January. Between both programs, over 500 hours were spent in Ride Alongs in January!

Fire Academy students have spent 56 hours this week alone doing Ride Alongs at the stations.

Palm Coast Volunteer Fire and Rescue is seeking additional Volunteer Fire Police. Please apply at:

HIGHLIGHTS

This week the Palm Coast Fire Department held quarterly training for the Confined Space Team. Here is an up-close look at life saving techniques; a high point pick off using a stokes basket and an aerial device.

The current issue of Florida Fire Service Magazine features an article on Palm Coast winning the Regional Award for Excellence in Public Safety highlighting the innovative volunteer firefighter internship program.

Unbelievably, fires come directly to the stations! A mobile brush fire from yard debris on a trailer came rolling into the station. Battalion Chief Petrillo and Fire Marshall Pattee came out right away and extinguished the fire before it got out of control.

Executive Summary: We are excited to announce that Frieda Zamba Swimming Pool has been awarded a grant from Note & Float Life Jacket Fund. We will be receiving 78 life jackets in order to outfit the facility for implementation of the Note & Float lifesaving program. This program requires that all non-swimmers wear properly-fitting U.S. Coast Guard approved life jackets. This is something the pool already required but there were only a limited number of life jackets available. The pool will now be able to accommodate many more non-swimmers as a result of this grant. The number of life jackets awarded is based on the highest attendance numbers of Frieda Zamba Swimming Pool along with a formula that Note & Float uses to determine how many life jackets are needed at a pool for given attendance numbers.

The furniture for the Community Center started being delivered on Tuesday, Feb. 20. This brings us one step closer to preparing for the Grand Opening on Friday, March 23, 5-7pm.

Over a period of time the water plant filters containing anthracite (crushed coal) is broken apart and washed out of the filters during every backwash. Every 2 years the filters have to be revitalized by adding back the lost anthracite. A filter takes a total of 49 bags of anthracite to bring it back to the optimum depth.

February is pet dental health month. Dental care is very important as pets can get dental disease just like we can. You should regularly check our pet's teeth to look for tarter and redness of the gums. Those pets with lots of tarter should have dentals done before the tarter damages the tooth. Some pets may be in need of some extractions that are causing them pain. When an animal has pain in its mouth, it will not eat due to the pain. Many times pet owners are unaware that their pets have a problem until it is too late. You should have your veterinarian check your pet's teeth at your annual checkup. Many veterinarian offices offer a special during February on discounted teeth cleanings and extractions. Make your pet's dental appointment today!

Pet of the Week

Bosco is a mature gentleman of 9 years. He is already neutered, microchipped, and up to date on his vaccinations. Bosco gets along well with other pets but prefers to be the dominant one. He doesn't seem to mind cats and is good around older children. He seems to be housebroken and has excellent leash manners. Come and meet this stately gentleman today. He is one of the longest residents at the shelter right now and would love a home to call his own.
