Grand Opening – Wastewater Treatment Plant 2

This week the City celebrated the grand opening and ribbon cutting of the new Wastewater Treatment Plant 2. Mayor Holland welcomed nearly a hundred residents, local officials, the builder, the engineer and staff at this commemorative event. Tours were given by plant staff to those in attendance. The new Advanced Wastewater Treatment facility produces an effluent quality that nearly meets drinking water standards, however this highly treated effluent is used for irrigation and groundwater recharge for our community. For more information, see the attached Utility Department Update.

This week Palm Coast Television released two videos that look back at the 1998 wildfires in Palm Coast and across Florida. "Further from the Ashes," produced to mark the 20th anniversary of the wildfires that deeply affected our community, can be viewed on YouTube at the following links: <https://youtu.be/1vLYVDI1c1A> and <https://youtu.be/unwvh2Rnrzo>. The City Council and our citizens enjoyed seeing the video at Tuesday's Council meeting, where firefighters and volunteers who worked the '98 wildfires were recognized. Thank you to the Palm Coast Fire Department and several residents for assisting us with this project.

The Division also coordinated the Grand Opening for the Wastewater Treatment Plant 2, and prepared for Friday night's Portugal Day flag-raising. We staffed the Council meeting on Tuesday, and then sent a news release about the Council's appointment of Vincent T. Lyon to the vacant District 4 seat on City Council. Other news releases distributed this week include road closures, summer activities for adults and seniors, and Food Truck Tuesdays (June 19 event).

The Brand Plus Team met this week and heard a presentation from intern Nicole Brownrigg on plans for the Rooted in Nature campaign over the next few months. The team also discussed adding way-finding signage for Waterfront Park and new park signage.

We staffed the Citizen's Academy session at Wastewater Treatment Plant 3 and graduation and also posted to Facebook, Instagram and Twitter. The staff judged two categories for the NATOA Government Programming Awards. Graphic design included the Intracoastal Waterway Cleanup mascot, materials for the opening of Wastewater Treatment Plant 2, a flier for the Pink Army 5K, and a graphic for Fireworks in the Park. The 2018 Find Your Florida Photo Contest wrapped up May 31, and we are now preparing for the judging.

Palm Coast Firefighters distributed over 900 Emergency Response Guides to residents at the Island Walk Publix during Memorial Day weekend. Mayor Holland and Vice Mayor Cuff joined the Palm Coast Firefighters to create storm awareness. They provided important storm information including the flood evacuation zones.

Members of the fire department were finally able to get some painting done on Station 21 on the only sunny day that we had!

One of the many responses this week is Engine 23 being called to a vehicle fire on I-95. Dangers to the crew do not only include the burning vehicle, but the hazardous road conditions and traffic.

Firefighter Strozier is pictured here extinguishing the engine compartment.

Our most exciting news is that Fun in the Sun Summer Camp started! We are happy to welcome it back to the Community Center. With the added facility space, we could expand our numbers. We also welcomed back grades 6-8. This week campers enjoyed a pool day at Frieda Zamba, a field trip to Sky Zone, and cooking classes. They also got horseshoes lessons from the Flagler County Horseshoe Pitching Club.

Our Tennis Pro attended the annual USPTA Florida Division Convention in Orlando. He was able to attend continuing education seminars and professional networking events.

Our Adult Basketball League kicked off on June 4 and will run through July. We had a great crowd cheering on our teams this first week. We also started up our Nature/Fitness Walks again for the summer. These walks will explore Linear Park/St. Joe Walkway. The shaded trail will help us to beat the summer heat.

HIGHLIGHTS WASTEWATER TREATMENT PLANT 2 GRAND OPENING

On Tuesday June 5th, the City of Palm Coast celebrated a ribbon-cutting ceremony for the grand opening of the new Wastewater Treatment Plant 2.

Speakers for the event were Mayor Milissa Holland; David Geirach-President of CPH Engineering; Waymon Pardue-Senior Project Manager with PC Construction; Utility Systems Manager Danny Ashburn; and Thomas Kallemeyn of FDEP's North East District.

The plant opening adds 2 million gallons per day capacity to the wastewater system, which is needed to accommodate growth. Currently, Wastewater Treatment Plant 2 is treating nearly 1 million gallons per day.

Wastewater Treatment Plant 2 is located west of U.S. 1 in northwestern Palm Coast, on 30.23 acres. It is located on the same site as Water Treatment Plant 3. The new wastewater plant cost close to \$30 million and was financed with a very-low-interest loan from FDEP. It was designed by CPH Engineers and built by PC Construction.
