MCDIRMIT DAVIS PUCKETT

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Commissioners
City of Palm Coast, Florida

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the *City of Palm Coast, Florida*, as of and for the year ended September 30, 2002 which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, each major fund and the aggregate remaining fund information of the *City of Palm Coast, Florida*, as of September 30, 2002, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 14, 2002 on our consideration of the *City of Palm Coast, Florida's* internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis, the budgetary comparison information, and the modified approach information on pages 9 through 15 and 46 through 47 are not a required part of the basic financial statements but are supplementary information required by the Governmental Auditing Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplemental information. However, we did not audit the information and express no opinion on it.

CERTIFIED PUBLIC ACCOUNTANTS AND ADVISORS
605 E. ROBINSON STREET, SUITE 635 • ORLANDO, FLORIDA 32801
TELEPHONE 407-843-5406 • FAX 407-649-9339 • EMAIL: INFO@MDPCPA.COM

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Palm Coast's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, statistical section and schedule of expenditures of state financial assistance are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules, and schedule of expenditures of state financial assistance have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This page intentionally left blank.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Palm Coast's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent year challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

Financial Highlights

- The assets of the City Of Palm Coast exceeded its liabilities at the close of fiscal year 2002 by \$180,251,541. Of this amount, \$13,008,730 may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net assets increased by \$168,104,967. Most of the increase was attributable to land and infrastructure contributions from Flagler County.
- The City Of Palm Coast's total debt increased by \$1,073,852 during the current fiscal year. Loans for the purchase of environmental lands were the primary reason for the increase.

Overview of the Financial Statements

This annual report consists of four parts - management's discussion and analysis (this section), the basic financial statements, required supplementary information, and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detail data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with combining statements that provide details about our nonmajor governmental funds, each of which are added together and presented in single columns in the basic financial statements. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-Wide Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's net assets and how they have changed. Net assets - the difference between the City's assets and liabilities - is one way to measure the City's financial health, or position.

- Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating.
- To assess the overall health of the City you need to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's roads.

Since the City of Palm Coast has no business-type activities such as water and sewer systems, the government-wide financial statements include only governmental activities. Most of the City's basic services are included here, such as law enforcement, fire, public works, parks, and general administration. Property taxes and intergovernmental revenues finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds - not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by Florida Statute or other regulations. The City only has governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.

Financial Analysis of the City as a Whole

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Palm Coast, assets exceeded liabilities by \$180,251,541 at the close of the most recent fiscal year.

Of the net assets, 7 percent falls in the unrestricted category. These may be used to meet ongoing obligations to citizens and creditors. Investment in capital assets makes up 93 percent of the City of Palm Coast's net assets. These capital assets are used to provide services to citizens and therefore are not available for future spending. Although the investment in capital assets is reported net of related debt, used to acquire the assets, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table I
City of Palm Coast's Statement of Net Assets

	Governmental Activities	
	2002	2001
Current and other assets	\$ 15,155,934	\$ 8,946,724

Unrestricted	13,004,484	7,355,732
Total net assets	\$ 180,251,541	\$ 12,146,575

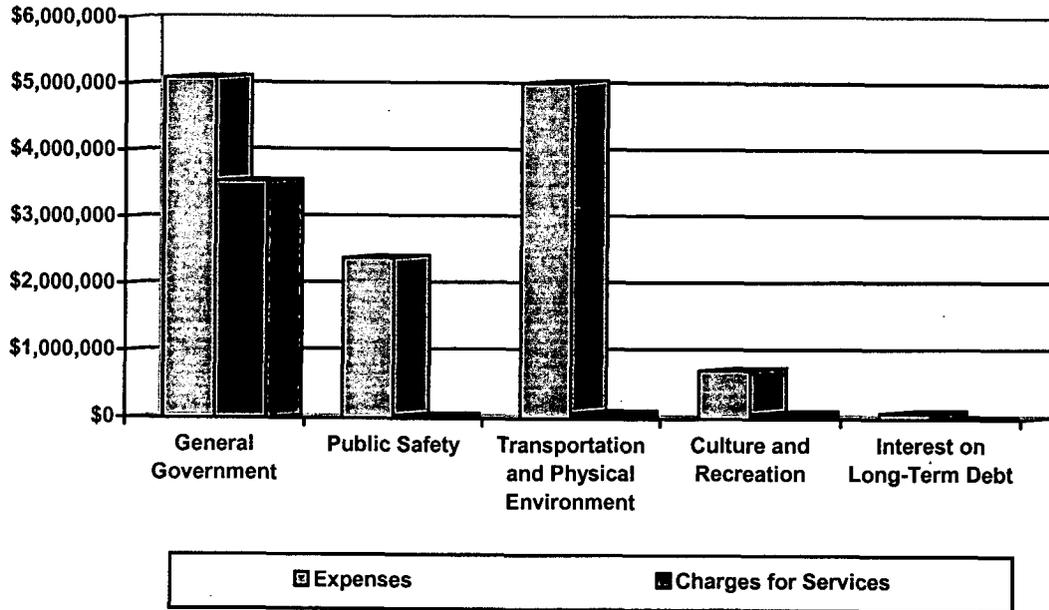

Governmental Activities

The City's net assets increased by \$168,104,967 during the current fiscal year. While the City had assumed the maintenance of streets from the County in the previous year, ownership of the streets was not transferred until October 1, 2001. The City received \$156,393,098 in assets from the County in fiscal year 2002. This was made up primarily land, streets, and bridges. Of the remaining \$11,711,869, approximately 53 percent of the increase was the result of excess revenues over expenditures. The other 47 percent was an increase in net capital assets.

Net assets - ending	<u>\$ 180,251,541</u>	<u>\$ 12,146,574</u>

Expenses and Charges for Services

Revenues by Source

Financial Analysis of the Government's Funds

Since the City of Palm Coast does not have any business-type activities, citywide financial statements are made up of only governmental activities. The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance in the general fund was \$2,763,569. The total fund balance stood at \$3,610,836. As a measure of the general fund's liquidity, it may be useful to compare both unreserved and total fund balance to fund expenditures. Unreserved fund balance represents 22 percent of total general fund expenditures, while total fund balance represents 29 percent of that same amount.

The fund balance of the City of Palm Coast's general fund increased by \$661,020 during the current fiscal year. Key factors in this growth are as follows:

- Tax revenue increased by \$3.3 million. The new telecommunication services tax accounted for \$1.1 million of the increase. This is an ongoing revenue source.
- License and permit revenue increased by \$1.1 million. Most of this increase was generated from the issuance of building permits.

The capital projects fund has a total fund balance of \$7,763,079, an increase of \$3,516,214. The other governmental funds have a total fund balance \$1,965,980. This was increase of \$1,628,402 during the current fiscal year.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget totaled \$948,000. Building inspection costs were higher than expected due the increase in building activity. This additional cost was covered by increases in permit revenue. Other major budget increases were for street and stormwater facility repairs. These were covered by increases in intergovernmental revenue and contingency funds.

Capital Asset and Debt Administration

Capital assets. The City of Palm Coast's investment in capital assets as of September 30, 2002, amounts to \$169,790,535 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment. This is an increase of \$162,951,025 for the current fiscal year. The City received \$156,393,098 worth of land, streets, and bridges from the County. The City also purchased land for an additional \$4,535,756.

The City uses the modified approach to account for infrastructure assets. This includes streets and the associated bridges. Currently 79 percent of the streets in Palm Coast are considered to be in good or better condition. The City is in the process of establishing target condition levels for the maintenance of streets and bridges.

Table III
City of Palm Coast's Capital Assets

	Governmental Activities	
	2002	2001
Land	\$ 27,564,331	\$ 4,224,510
Buildings and improvements other than buildings	138,186,852	1,316,302
Equipment	3,044,892	905,137
Construction in progress	994,460	-
Total	\$ 169,790,535	\$ 6,445,949

Additional information on the City of Palm Coast's capital assets can be found in note 6 on page 40 of this report.

Long-term debt. The City of Palm Coast borrowed an additional \$915,000 during the year to purchase environmental land. This brings the total loan for the purchase of environmental land to \$2,520,000. This loan is to be repaid with the proceeds of a grant from the State. The City also has a CDBG loan with a balance of \$291,067. The remainder of the long-term debt is made up of capital leases and compensated absences. The total long-term debt of the City is \$3,073,606.

Next Year's Budget and Rates

During the current fiscal year, unreserved fund balance in the General Fund increased to \$2,763,569 plus an additional \$569,429 reserved for encumbrances. The City of Palm Coast has appropriated \$1,100,000 of the unreserved fund balance for spending in the 2003 fiscal year budget. After encumbrance and project carryovers, the available fund balance, as a percentage of prior year expenditures and transfers out is 12 percent.

The City Council approved a millage rate of 3.4 mills for fiscal year 2003. This is a reduction of 0.1 mills from the fiscal year 2002 rate.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City of Palm Coast's financial condition and to demonstrate the City's accountability for the money it receives. City of Palm Coast, Florida
 Reconciliation of the Statement of Revenues, Expenditures,
 And Changes in Fund Balances of Governmental Funds
 To the Statement of Activities
 Governmental Funds
 For the Year Ended September 30, 2002

Net change in fund balances - total governmental funds \$ 5,805,636

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.

Expenditures for capital assets	6,840,516	
Less current year depreciation	<u>(277,451)</u>	6,563,065

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Contributed property and equipment	156,393,098
------------------------------------	-------------

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, the governmental funds report the effect of issuance costs when debt is first issued, whereas amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

(887,464)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

(122,321)

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of certain activities of the internal service funds is reported with governmental activities.

352,953

Change in net assets of governmental activities.

NOTES TO FINANCIAL STATEMENTS

This page intentionally left blank.

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Note 1 – Summary of Significant Accounting Policies

Reporting Entity

The *City of Palm Coast, Florida* (the "City") was incorporated December 31, 1999 under the laws of the State of Florida. The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (fire and law enforcement), highways and streets, parks and recreation, public improvements, planning and zoning, and general administrative services. The accompanying financial statements include all those separately administered departments and funds for which the City has financial accountability. There are no potential component units or related organizations of the City.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 1 – Summary of Significant Accounting Policies (Continued)

***Measurement Focus, Basis of Accounting, and Financial Statement Presentation
(Continued)***

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The capital projects fund accounts for resources accumulated and payments made for the acquisition of land and construction of major capital facilities.

Additionally, the government reports the following fund types:

Internal service fund accounts for fleet management services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 1 – Summary of Significant Accounting Policies (Continued)

***Measurement Focus, Basis of Accounting, and Financial Statement Presentation
(Continued)***

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing activities. The principal operating revenues of the City's internal service fund are charges to customers for sales and services. Operating expenses for the internal service fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Deposits and Investments

The City's cash and cash equivalents is cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of the acquisition. Investments are reported at fair value.

Receivables

Receivables consist primarily of amounts due from other governments. All receivables are deemed collectible, and no allowance for uncollectible accounts is considered necessary.

Capital Assets

Capital assets are defined by the City as property and equipment with an initial, individual cost of more than \$750 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Contributed assets are recorded at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The City has elected the modified approach from Governmental Accounting Standards Board Statement Number 34. Using this method, infrastructure assets are recorded at cost or estimated cost but are not depreciated. The cost of maintaining the asset at the targeted condition level is expensed each year instead of recording depreciation on the asset. Depreciation on all other assets is provided on the straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	20 - 40
Improvements other than buildings	7 - 30
Equipment	5 - 20

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 1 – Summary of Significant Accounting Policies (Continued)

Interfund Transactions

Interfund transactions reflect as either loans, services provided, reimbursements or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Compensated Absences

Employees may accumulate vacation and sick leave with certain limitations as to the number of hours of accumulation. Employees are paid 100% of their accumulated vacation pay and sick leave when they terminate up to a maximum of 320 hours for vacation and 320 hours for sick leave, as long as they are not dismissed with cause or fail to meet the 10 day notice requirement for voluntary resignations.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Note 2 – Reconciliation of Government-wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “capital assets used in governmental activities are not financial resources and, therefore, are deferred in the funds.” The details of this \$169,396,975 difference are as follows:

Capital assets	\$ 168,867,044
Less: Accumulated Depreciation	(464,529)
Construction in progress	994,460
 Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	 \$ 169,396,975

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 2 – Reconciliation of Government-wide and Fund Financial Statements (Continued)

A second element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$3,065,955 difference are as follows:

Loans payable	\$ 2,811,067
Less: Issuance cost to be amortized over the life of the debt	(6,478)
Capital leases payable	77,967
Compensated absences	183,399
Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	\$ 3,065,955

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation states that “the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, the governmental funds report the effect of issuance costs when debt is first issued, whereas amounts are deferred and amortized in the statement of activities.” The details of this \$887,464 difference are as follows:

Debt issued or incurred:	
Loan	\$ (915,000)
Less: Issuance costs	3,316
Capital lease financing	(39,279)
Debt repayments:	
Loan	27,243
Capital lease	37,756
Amortization of issuance costs	(1,500)
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	\$ (887,464)

A second element of that reconciliation states that “some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$122,321 difference are as follows:

Compensated absences	\$ (117,184)
Disposal of capital assets	(5,137)
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	\$ (122,321)

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS – CONTINUED**

Note 3 – Stewardship, Compliance and Accountability

Compliance with Finance-Related Legal and Contractual Provision

The City has no material violations of finance-related legal and contractual provisions.

Excess of Expenditures Over Appropriations

For the year ended September 30, 2002 no departments exceeded appropriations.

Appropriations in Excess of Funds Available

Appropriations for the Police Education Fund were in excess of anticipated revenue and prior year's fund balance.

Budgetary Information

The City follows these procedures in adopting the budget:

1. On or before the 30th day of September of each year, the City Council by resolution adopts an annual budget for all funds, after public hearings are conducted to obtain taxpayer comments.
2. If, during the fiscal year, revenues in excess of those estimated in the budget are available for appropriation, the Council may, by resolution, make supplemental appropriations for the year in an amount not to exceed such excess.
3. The City cannot legally exceed the budget; however, the City Manager is authorized to transfer budgeted amounts within a department. Any revisions that change the total expenditures of any department must be approved by the City Council. The legal level of budgetary control is the department level.
4. Budgeted amounts presented in the accompanying financial statements have been adjusted for legally authorized revisions of the annual budget during the year. Encumbrance accounting is not employed. Unexpended and unencumbered appropriations lapse at the end of the fiscal year and are reappropriated in the ensuing year.
5. The budget includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as a budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior periods' excess of revenues over expenditures.

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 4 – Deposits and Investments

Deposits

At year-end, the carrying amount of the City's deposits was \$4,267,236 and the bank balance was \$4,094,200. All bank deposits were fully covered by federal depository insurance and by deposits held in banks that are members of the State of Florida's Collateral Pool as specified under Florida law. Florida Statutes provide for collateral pooling by banks and savings and loans. This limits local government deposits to "authorized depositories". Included in the carrying amount of the City deposits is \$200 in petty cash.

Investments

The City follows guidelines of Florida Statute Section 218.415, which allows the following investments:

1. The Local Government Surplus Funds Trust Fund
2. SEC registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
3. Interest bearing time deposits or savings accounts in qualified public depositories.
4. Direct obligations of the U.S. Treasury.

At September 30, 2002, the City had no investments that were required to be categorized as to level of risk. The City had a \$5,029,579 investment in the State Board of Administration Pooled Cash.

Note 5 – Receivables

Receivables consist of the following at September 30, 2002:

	General Fund	Fleet Management Fund	Totals
Accounts receivable	\$ 17,143	\$ 1,025	\$ 18,168
Notes receivable - current	28,448		28,448
Notes receivable - noncurrent	260,300		260,300
	<u>\$ 305,891</u>	<u>\$ 1,025</u>	<u>\$ 306,916</u>

Notes receivable, both current and noncurrent, is a loan to Flamingo Development of Flagler, Inc. The City received a Community Development Block Grant loan for the same amount. The amount owed by the City is included in general long-term debt.

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 6 – Capital Assets

Capital asset activity for the year ended September 30, 2002 was as follows:

	Balance 09/30/01	Additions	Deletions	Balance 09/30/01
Governmental Activities				
Capital assets, not being depreciated:				
Land	\$ 4,224,510	\$ 23,339,821	\$ -	\$ 27,564,331
Construction in progress	-	994,460	-	994,460
Infrastructure	-	136,908,974	-	136,908,974
Total capital assets, not being depreciated	4,224,510	161,243,255	-	165,467,765
Capital assets, being depreciated				
Buildings and improvements other than buildings	1,358,260	-	-	1,358,260
Equipment	1,052,728	2,406,290	(7,608)	3,451,410
Total capital assets, being depreciated	2,410,988	2,406,290	(7,608)	4,809,670
Less accumulated depreciated for:				
Buildings and improvements other than buildings	(41,958)	(38,424)	-	(80,382)
Equipment	(147,591)	(261,398)	2,471	(406,518)
Total accumulated depreciation	(189,549)	(299,822)	2,471	(486,900)
Total capital assets, being depreciated, net	2,221,439	2,106,468	(5,137)	4,322,770
Governmental activities capital assets, net	\$ 6,445,949	\$ 163,349,723	\$ (5,137)	\$ 169,790,535

Land, totaling \$18,803,864 and infrastructure and improvements other than buildings, totaling \$137,589,234 were contributed to the City during the year ended September 30, 2002.

Depreciation expense was charged to the functions/programs as follows:

Governmental activities:	
General government	\$ 50,116
Public safety	82,570
Public works	142,771
Culture and recreation	1,994
Capital assets held by the government's internal service funds are charged to the various functions based on their usage of the assets	<u>22,371</u>
Total depreciation expense - governmental activities	\$ 299,822

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 7 – Interfund Transfers

Transfers from the General Fund are generally made to establish reserves for future capital expenditures and possible emergency related expenditures.

	Transfer In:			
Transfer Out:	Capital Projects Fund	Nonmajor Governmental Funds	Internal Service Funds	Total
General Fund	\$ 590,216	\$ 310,000	\$ 142,969	\$ 1,043,185

Note 8 – Leases

Operating Leases:

Total rental expense from operating leases in the various funds is as follows:

General Fund	<u>\$ 29,030</u>
--------------	------------------

Capital Leases:

The City has entered into a lease agreement for financing the acquisition of computer equipment. This lease agreement qualifies as a capital lease for accounting purposes and therefore has been recorded at the present value of the future minimum lease payments as of the date on inception. Assets recorded under capital lease and the accumulated amortization is as follows:

Computer equipment	\$ 134,701
Less: Accumulated amortization	<u>(35,141)</u>
	<u>\$ 99,560</u>

Amortization of equipment leased under capital lease is included in the general government function.

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 8 – Leases (Continued)

The following is a schedule by years of future minimum lease payments under capital lease, together with the present value of the net minimum lease payments as of September 30:

<u>Year Ending September 30</u>	
2003	\$ 51,411
2004	27,862
2005	<u>5,641</u>
Total minimum lease payments	84,914
Less amount representing interest	<u>(6,947)</u>
Present value of minimum lease payments	<u>\$ 77,967</u>

The current and long-term obligation under capital lease is \$46,454 and \$31,513, respectively.

Note 9 – Long-Term Debt

Local Government Pooled Loan

During 2001, the City Council of Palm Coast authorized the borrowing of up to \$4,400,000 from the Florida Local Government Finance Commission to finance environmentally sensitive lands under the Palm Coast Parkway Corridor Land Acquisition Program. At September 30, 2002, the City had borrowed \$2,520,000 under the loan agreement. The entire principal amount is due December 5, 2006. The interest rate on the loan varies, but was 1.41% at September 30, 2002.

Annual debt service requirements to maturity are as follows:

<u>Year Ending</u>	<u>Principal</u>	<u>Interest</u>
<u>September 30</u>		
2003	\$ -	\$ 35,532
2004	-	35,532
2005	-	35,532
2006	-	35,532
2007	<u>2,520,000</u>	<u>35,532</u>
	<u>\$ 2,520,000</u>	<u>\$ 177,660</u>

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 9 – Long-Term Debt (Continued)

CDBG Loan

During the fiscal year ended September 30, 2000, the City of Palm Coast entered into an agreement with Florida Department of Community affairs (DCA). DCA agreed to lend \$324,953 to the City who then entered into an agreement to lend the same amount to a private company who agreed to construct and operate a day care center.

This loan is payable to DCA at \$3,290 per month at 4% interest through May 14, 2011. The same terms apply to the note receivable from the day care center.

Annual debt service requirements to maturity for the loan are as follows:

Year Ending September 30	Principal	Interest
2003	\$ 30,768	\$ 11,032
2004	29,607	9,873
2005	30,813	8,667
2006	32,068	7,412
2007	33,375	6,105
2008 - 2011	134,436	10,323
	<u>\$ 291,067</u>	<u>\$ 53,412</u>

Changes in long-term debt

During the year ended September 30, 2002, the following changes in long-term debt occurred:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Local Government					
Pooled Loan	\$ 1,605,000	\$ 915,000	\$ -	\$ 2,520,000	\$ -
CDBG Loan	318,310	-	(27,243)	291,067	30,768
Capital leases	76,444	39,279	(37,756)	77,967	46,454
Compensated Absences	66,216	118,356	-	184,572	124,489
Long-term debt	<u>\$ 2,065,970</u>	<u>\$ 1,072,635</u>	<u>\$ (64,999)</u>	<u>\$ 3,073,606</u>	<u>\$ 201,711</u>

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 10 – Retirement Plans

Defined Contribution Plan

The City maintains a single employer defined contribution plan. All full-time employees are eligible to participate. The name of the plan is the City of Palm Coast 401(a) Pension Plan. Under this plan, the City contributes a certain percentage of employees' eligible wages determined by City Council. Employees do not participate in the plan funding. For the period ended September 30, 2002, contribution to this plan totaled \$174,160.

Florida Retirement System – Former Flagler County and Palm Coast Service District employees hired as transfers during the 1999-2000 or 2000-2001 fiscal year have a one-time option to remain a member of the Florida State Retirement System (FRS). No employees for FYE 1999-2000 elected to be part of FRS. However, during 2001 there were former Palm Coast Service District employees hired who did elect to remain in FRS.

The Retirement System is a cost sharing multiple employer public employee retirement system administered by the State of Florida Department of Management Services, Division Retirement, to provide retirement and survivor benefits to participating public employees. Chapter 121, Florida Statutes, establishes the authority for participant eligibility, contribution requirements, vesting eligibility and benefit provisions.

The System provides vesting of benefits after six (6) years of creditable service. Members are eligible for normal retirement after 6 years of service and attaining age 62, or 30 years of service regardless of age. Early retirement may be taken any time after completing 10 years of service; however, there is a five percent reduction in benefits for each year prior to normal retirement. Generally, membership is compulsory for all full-time and part-time employees.

There is no requirement for employees to contribute to the System; the employer pays all contributions.

The statutory contribution rates as a percent of earnings were as follows:

	10/1/2001 - <u>6/30/2002</u>	7/1/2002 - <u>9/30/2002</u>
Regular employees – members not qualifying for other classes	7.30%	5.76%
Special Risk Employees – members employed as law enforcement officers and firefighters	18.44%	16.01%
Health Insurance Subsidy included in the above rates	0.94%	1.11%

**CITY OF PALM COAST, FLORIDA
NOTES TO FINANCIAL STATEMENTS - CONTINUED**

Note 10 – Retirement Plans (Continued)

Contributions required and made to the System for City employees were as follows:

<u>Fiscal Year Ended</u>	<u>Required Contribution</u>	<u>% Contributed</u>
9/30/2002	\$159,692	100%

For a stand-alone report of the Florida Retirement System, refer to the State of Florida Comprehensive Annual Financial Report or various publications available from the Florida Department of Management Services.

During the fiscal year, the System held no securities issued by the employer.

Note 11 – Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. There has been no significant reduction in insurance coverage from the previous year. There have been no settlements in excess of insurance coverage in any of the prior three fiscal years.

 Required Supplementary Information
 Modified Approach for Reporting Infrastructure Assets
 For the Year Ended September 30, 2002

City infrastructure assets consist of Arterial, Collector, and Local Streets and associated bridges. The City keeps a complete inventory of all streets and bridges. This inventory includes: description, length, width, and other attributes. These assets were transferred to the City on October 1, 2001. During the year an analysis of the streets was done to determine condition.

Condition Rating of City Streets

	Miles	Percent in good or better condition	Percent in substandard condition
Arterial and Collector	66.2	100.0%	0.0%
Local	462.4	75.8%	24.2%
Overall System	528.6	78.8%	21.2%

Cost of Needed/Actual Maintenance/Preservation

	2002
Overall Street System	
Actual	\$ 2,097,800
Needed	1,600,000

The City has committed to a ten (10) year program of street resurfacing to bring all of the streets up to a good condition level. In September 2002, the voters of Flagler County approved a half-cent Local Government Infrastructure Surtax. The City's portion of the proceeds from this surtax has been designated for street resurfacing. After completion of this ten (10) year program, it is expected that the City will go to a 15 – 20 year resurfacing program.

For the first year of ownership, evaluation of the streets was done by visual inspection. The City is in the process of setting condition levels and establishing a management system for the streets and bridges.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Community Development Block Grant Fund – This fund is used to account for the community development block grant that is funding a day care center.

Police Education Fund - This fund is used to account for the costs of educational expenses for police officers. Revenues come from fines and forfeitures.

Police Automation Fund - This fund is used to account for funds collected and disbursements made for the purpose of acquisition of equipment to upgrade the technology of existing police equipment.

Disaster Reserve Fund - This fund has been set up to cover costs of a hurricane or other disasters.

Recycling Revenue Fund - This fund is used to account for revenue from the sale of recycled materials collected as part of the solid waste program.

Park Impact Fee Fund - This fund is used to account for fees collected from new development, for the purpose of expanding park facilities, and to track the expenditures of the money.

Public Works Impact Fee Fund - This fund is used to account for money collected from developers for future improvements such as sidewalks and traffic lights.
