Source: Flagler County Property Appraiser, based on preliminary values provided by July 1 of each year for 2004-2005. Fiscal year 2006 forward is based on final taxable values provided in October of each year. Detailed breakdown of final taxable values for 2004-2005 is not available from the Property Appraiser.

Note: The City of Palm Coast was incorporated on December 31, 1999. Property in the city is reassessed each year, and visited at least once every three years. Property is assessed at actual value; therefore the assessed values are equal to actual value. Tax rates are per \$1,000 of assessed value.

(1) Every person who has legal or equitable title to real property in the State of Florida, who resides on the property and makes it their permanent home, is entitled to a \$25,000 exemption for the tax years 2003-2007. Starting in tax year 2008, the exemption was increased to \$50,000, with an additional \$25,000 for ages 65 and older.

(2) The Florida Constitution has been amended effective January 1, 1995 to limit any annual increase in the assessed value of residential property with a Homestead Exemption to 3 percent or the Consumer Price Index percent change, whichever is lower. This limitation does not include any change, addition or improvement to a homestead.

Sources: Assessed value data used to estimate applicable percentages provided by the Flagler County Property Appraiser. Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Palm Coast. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental units' taxable value that is within the City's boundaries and dividing it by each unit's total taxable assessed value. This same formula is used for other overlapping debt.
