(location approximate)

Notes

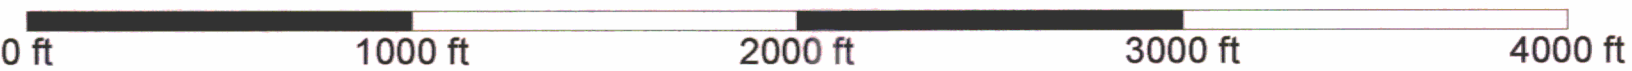

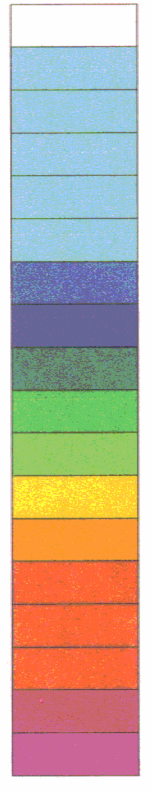

Elevations in feet below mean sea level.

Bathymetric survey conducted March 20 to 26, 2005 using Innerspace Technology, Inc. Model 456 dual frequency survey depth sounder with Trimble ProXRS digital global positioning system set to 1927 US State Plane coordinate system (Florida East) in feet.

Measured depth of water converted to elevation below mean sea level using residential bulkheads (3.5 feet above mean sea level) as a reference.

Legend

(in feet below mean sea level)
