Lab. This new partnership combines an incredible foundation in research, education, conservation, and natural interpretation with unique access to the southern boundary of the Guana Tolomato Matanzas National Estuarine Research Reserve (GTM NERR). We are excited to offer comprehensive ecological and cultural kayak tours in this beautiful coastal system. Don’t miss this opportunity to visit the dolphins of Marineland and add the chance to witness their natural habitat in the Matanzas River Estuary. All from the low-impact, unique perspective of a kayak!

In our continuing effort to provide the best eco-educational kayaking experiences in Northeast Florida, Ripple Effect Ecotours has now partnered with the Marineland Dolphin Conservation Center, and the University of Florida’s Whitney Lab. Discover Nature’s Beauty

Palm Coast is a paddlers paradise! Here you’ll discover long winding creeks and beautiful landscape paired with year-round perfect weather. Come and experience long winding rivers and crooked creeks while catching a glimpse of Florida’s wildlife.

See which wildlife you can spot while enjoying our waterways.

Safety Tips

- Wear your life jacket! Each person paddling, riding, or being towed behind a watercraft must wear an approved Type II, III, or V personal flotation device (PFD). Inflatable PFDs are prohibited for personal watercraft use.
- Check local weather forecast before heading out onto the water.
- Some launch sites are likely to have oyster shells visible. If launching, please wear shoes which won’t be damaged by the oyster shells.
- Be sure to check tide charts before heading out.
- Plan your paddling or boating trip ahead of time; be aware of the tides. For current tide information, go online at www.fwc.gov/tide.

Getting Ready for a Day on the Water

1. Place your paddle shaft behind (or in front) of the cockpit opening, across the deck.
2. Holding the paddle shaft in place, gently lean on one side to let that paddle blade rest on the water. Be sure to wear a PFD.
3. Using the paddle blade to steady you - quickly paddle over to the site you want to visit.
4. Place your paddle shaft behind (or in front) of the cockpit opening, across the deck.
5. Gently lean on one side to let that paddle blade rest on the water. Be sure to wear a PFD.
6. Using the paddle blade to steady you - quickly paddle over to the site you want to visit.

Long Creek Nature Preserve Paddling Guide

Long Creek Nature Preserve is located on Palm Harbor Parkway next to College Waterway Bridge, the preserve is about nine acres in size, connected to the 225-acre Long Creek Nature Park. Park facilities include pathways and boardwalks, canoes, kayaks, and a sandy shore for launching. Paddling chart and education area.

Getting In and Out

Place your paddle shaft behind (or in front) of the cockpit opening, across the deck.

Holding the paddle shaft in place, gently lean on one side to let that paddle blade rest on the ground.

Using the paddle shaft to steady you - quickly paddle over to the center of the cockpit - crouch - then sit.

Then use your paddle to give you a shove off.

Getting out in the same reverse.

Park It!

1. Place your paddle shaft behind (or in front) of the cockpit opening, across the deck.
2. Holding the paddle shaft in place, gently lean on one side to let that paddle blade rest on the water.
3. Using the paddle blade to steady you - quickly paddle over to the site you want to visit.
4. Place your paddle shaft behind (or in front) of the cockpit opening, across the deck.
5. Gently lean on one side to let that paddle blade rest on the water.
6. Using the paddle blade to steady you - quickly paddle over to the site you want to visit.
