COMMERCIAL ROOFING COLOR AND MATERIAL SHEET

Address: _____

Material/Roof Type: _____

Color: _____

Roof color. Roof color shall be compatible with the selected wall color. Roofs may be in the color of natural roofing materials (such as slate or clay) or may be finished in shades of gray, galvanized silver, copper, brown, green, red, black, blue, or white, except that a roof made of copper may be left in its natural color. Lighter colored roof materials, such as white or allowable galvanized metal, are strongly recommended for energy efficiency purposes.

Roofs. Roof material visible from the ground shall consist of concrete, slate, or clay tiles, asphalt fiberglass shingles, or metal standing seam.

**This document shall be on site and made available to the
Inspector at the time of inspections.**
